WORKWEAR

VOLUME 11

WE ARE BISLEY WORKWEAR.

WE ARE BUILT TO GET THE **JOB DONE**.

WE ARE MADE TO **WORK AS HARD AS YOU DO**.

WE ARE AS **TOUGH AS THE PEOPLE** WHO WEAR US
AND THRIVE IN SOME OF THE
TOUGHEST CONDITIONS IN THE WORLD.

WE STAND ALONGSIDE THE **STRONGEST IN THE GAME**.

FROM THE BOSS TO THE APPRENTICE.

THOSE WHO **BREAK THE MOULD**
AND REDEFINE THEIR INDUSTRIES.

WE DO WHATEVER IT TAKES TO GET **YOUR JOB DONE**.

OUR STORY

2

OUR STORY

OUR CORE BELIEF

We create the best uniform solution with the best workwear to get the Job Done.

Every Job. Every Day.

WHY WE BELIEVE IT

Huge range for every job our customers do.

Functional designs created for specific jobs and customer requirements.

Unparalleled quality that keeps our customers coming back.

HOW WE SAY IT

JOB DONE:

Is the story of getting your hands dirty, never shying away from hard work, of being a part of the team, and doing whatever it takes to get it done.

BISLEY WORKWEAR INNOVATION

Bisley Workwear has been at the forefront of technical innovation in textiles for over 60 years. We pride ourselves on being innovators, on never saying “no”, and continually improving our fits, fabrics, and functionality. Look out for these great features throughout our catalogue for the ultimate experience in comfort, durability, and safety.

T400

T400 is used in the new women’s shirt range. It is the premium high stretch fibre alternative to elastane.

Unlike elastane, the elasticity performance of polyester T400 will not deteriorate when in contact with heat. It provides excellent stretch and recovery properties and does not degrade or sag over time with normal use. It also provides a soft hand feel and breathability for a comfortable stretch fit.

Serious Stretch

DURABLE, STRETCHY, COMFY.

For jobs that require bending, moving, and lifting, nothing is more comfortable than stretch fabrication.

Bisley Workwear have integrated premium industrial stretch fabrications into our range, increasing the longevity, integrity, and comfort of the garment. These stretch fabrications put less pressure on the seams of the garments, reducing the likelihood of ripping or tearing while you work.

Look out for the  symbol across our huge range of work pants, shorts, and shirts.

DURABLE, FLEXIBLE, COMFORTABLE

FLX & MOVE™ range takes working and comfort to the next level. Excellent fit and made from superior stretch fabrics with tough Kevlar and Cordura accents in high abrasive areas – this is what sets the FLX & MOVE™ range apart from any other Bisley Workwear range.

FLX & MOVE™ is a tough wearing range designed to move with you comfortably all day without restriction.

Bisley's design registered Cross Airflow™ technology was engineered to create the most breathable garment you own.

The technology is based on a 3D cooling system, where the air flows through multiple ventilation points on the garment at key heat stress areas, drawing heat and moisture away from the skin and out of the garment.

Bisley Workwear garments now include Fresche® microbial protection for long term control and protection against bacteria and mould.

Fresche® is an invisible, sustainable, and odourless garment wash that stops bacteria growing on the garment, preventing stains and odours from taking hold.

Fresche® is exclusive to Bisley Workwear.

Flame Resistant garments are one of the key requirements for our customers across Oil, Gas, Electrical, Civil Works, Structural Works, and Mining. If ignited, normal fabrics will continue to burn until they are extinguished, or all flammable material is consumed. So, we created an inherently Flame-Resistant range with TenCate, using their Tecasafe® Plus fabrics to help protect your greatest assets - your workers.

This flame resistance exists in the polymers of the Modacrylic fibre, so cannot wash or wear out, and is created using an eco-friendly process that produces no harmful byproducts.

Hard work is often hard on your workwear, so we use Cordura® fabrication reinforcements for extra abrasion and tearing resistance.

Working on your knees, taking tools in-and-out of pockets, and putting sharp or abrasive materials into your pockets can often wear down fabrics over time.

For long-lasting performance and to increase the lifetime of your Bisley Workwear, look for products with Cordura® reinforcements.

For workwear designed to be as tough as you are, we created the strongest knee patches on the market: with Kevlar®. Known for industrial uses like bulletproof vests, motorcycle racing gear, ropes and cables with cut resistant gloves, Kevlar® was built into the Bisley Workwear range so you never wear through the knees of your pants again.

Made seriously tough on the outside, but comfortable on the inside, these knee patches will outlast your toughest jobs and increase the lifetime of your workwear.

BISLEY STANDARDS

Bisley Workwear garments are developed and tested to meet stringent industry standards and deliver work, health and safety (WHS) solutions.

AS/NZS 2622:1996

Bisley Workwear garments meet the requirements of AS/NZS 2622:1996, which outlines the method for labelling of fibre content in textile products.

AS 2001.2.18-1987

Bisley Workwear 'waterproof' garments are deemed compliant when no water has passed through it over an 18-hour period. These garments have a water-repellent or water-resistant coating that stops moisture from reaching the wearer in wet weather conditions.

AS/NZS 1020:1995

Bisley Workwear offers a large range of natural cotton fibre products, which naturally avoid the generation of static electricity by remaining neutral, therefore increasing the wearer's comfort.

ISO 14184-2.2011

Fabrics used in Bisley Workwear garments are tested regularly to ensure that naturally created formaldehyde levels are kept to the safe minimum standard set out by the ACCC (Australian Competition & Consumer Commission). Bisley Workwear garments are free from formaldehyde.

AS/NZS 1957:1998

Bisley Workwear garments meet the requirements of AS/NZS 1957:1998 that outlines the care instructions needed to ensure proper care of the garment.

AS/NZS 2392:1999

Bisley Workwear garments meet the requirements of AS/NZS 2392:1999, which outlines the method for permanent labelling with the brand name, size, care instructions, fibre content and country of origin.

**AS/NZS
4602.1:2011
/ Admdt2:2020**

This standard specifies the visual requirements for high visibility safety garments for occupational wear by people who may be exposed to the hazard of moving traffic, moving plant or equipment in high risk situations. The standard covers garments suitable for day-time wear, night-time wear, where they will be seen by retroreflected light or for wear under both conditions in the relevant high risk situations, with minimum requirements for high visibility garments.

**AS/NZS
1906.4:2010**

Bisley Safetywear garments use high visibility materials made from durable woven or knitted fabrics and are tested for high daytime visibility. Our high quality fabrics and retroreflective tapes for use at night are tried and tested to this standard to ensure you're protected in high risk situations.

**AS/NZS
4399:2017**

All garments that comply with this standard deliver ultraviolet protection, commonly known as UPF. Where the most effective sun protection is required, we recommend a garment that covers the full arm and leg area and has a sun protection rating of UPF 50+.

BISLEY ICONS

To help you navigate the features of Bisley Workwear, this handy guide will explain the product features and benefits represented by each of our icons.

You will find these icons alongside the name of every product in this catalogue.

VISIBILITY

HI VISIBILITY MATERIAL

Bisley Safetywear Hi Vis garments are developed to be seen in high-risk environments and protect you from work place hazards.

AS/NZS 1906.4:2010

HI VIS DAY ONLY

Class D. Day only garments are developed to be worn during the day time only and never at night. Hi Vis Colours are used to ensure you're seen in high-risk environments.

AS/NZS 4602.1:2011/Admdt2:2020

HI VIS DAY OR NIGHT

Class D/N. Day/Night garments are developed to be worn both during the day and also at night. Hi Vis Colours accompanied with retroreflective taping offer maximum protection.

AS/NZS 4602.1:2011/Admdt2:2020

HI VIS NIGHT ONLY

Night (N) Only garments are developed to be worn during the night time only as the retroreflective taping offers visibility from vehicle headlights.

AS/NZS 4602.1:2011/Admdt2:2020

TTMC-W17

Bisley Safetywear garments comply with NZTA (New Zealand Transport Agency) code of practice (CoPTTM) Temporary Traffic Management Control - Wet (TTMC). This code of Practice specifies the standard of safety garments that a worker must wear while working in or close to hazardous traffic areas.

AUS RAIL

This Australian Rail standard outlines the minimum requirements for PPE when accessing the rail corridor. The high visibility shade is fluorescent orange. Both orange and reflective tape must comply to AS/NZS 1906.4:2010 and design compliant to AS/NZS 4602.1:2011 standard.

AS 7471:2019

PROTECTION

SUN PROTECTION

The ultraviolet radiation transmitted through a fabric to the skin is measured and given a rating of 15 (min protection), 30 (good protection), 50, 50+ (excellent protection).

AS/NZS 4399:2017

INDUSTRIAL STRENGTH

Reinforced stitching, bartacks, rivets and heavy duty fabrics mean Bisley Workwear products with this symbol have been developed for industrial environments or work places.

STATIC CONTROL

Certain natural fibres do not attract static electricity (static neutral) and therefore reduce the risk of an electric shock to the body. 100% cotton is the most common static control in garments.

AS/NZS 1020:1995

COLD WEATHER

Garments designed to keep you warm in cold weather.

SHOWERPROOF

Resistant to light rain. Fabric is either treated with an outer coat finish or a waterproof membrane is added to the reverse side of rainwear fabrics. Generally if a garment repels liquid on the outside and is not fully seam sealed on the inside, it is also categorised as showerproof.

WATER RESISTANT

Water resistant membranes are often added to the reverse side of rainwear fabrics to ensure that no water can penetrate from outside, water resistant garments are fully seam sealed on the inside keeping you dry in wet weather.

AS 2001.2.18-1987

PROTECTION

BIOSCIENCE FRESCHE®

Fresche® microbial treatment is a highly effective approach to long term control and protection against the growth of bacteria and fungus which causes stubborn odours and stains. Fresche® is invisible when applied, it will not impact or change the colour or feel of the garment. Fresche® is derived from coconut oil a safe, sustainable and renewable resource.

MOISTURE CONTROL

Hydrophilic garments pull perspiration away from your skin to the outer layer of the fabric where it is able to evaporate faster, leaving your skin fresh and without excessive perspiration.

STAIN REGUARD

DuPont, the world leader in fibre and fibre treatment technology use their ingenious stain release technology to provide garments with an easy cleaning solution.

CORDURA® INVISTA™ CORDURA®

Some Bisley Workwear garments have Cordura® incorporated into them to enhance tear and abrasion resistance, due to the high quality, resilient Nylon yarns used to create it.

INDUSTRIAL WASH

Bisley premium Industrial range is designed to withstand industrial washes at 75°C. Using superior imported German dyes for greater colourfastness and superior industrial strength reflective tape.

COMFORT

COOL LIGHTWEIGHT

We recognise the need for developing lightweight, breathable garments and have added mesh ventilation to key perspiration points on some garments.

X AIRFLOW™

Bisley's X Airflow™ Technology is based on a 3D cooling system, where the air flows through multiple ventilation points on the garment at key heat stress areas.

BREATHABLE

Fabric is breathable or the garment is designed with ventilation.

STRETCH

Built in stretch that allows greater ease of movement when working.

EASY-FIT

Whether you're an 'in-between' size or you prefer a comfortable stretch for freedom of movement, garments developed with an easy-fit waist can provide an ergonomic adjustment with no change to look or feel.

FLAME RESISTANCE

FLAME RESISTANT

Garments made with flame resistant fabrics are made from materials that are inherently non-flammable. These type of materials are designed to prevent the spread of fire and will not melt or drip when in close proximity to a flame.

NFPA 2112:2018

TENCATE

Tecasafe® Plus

TENCATE TECASAFE® PLUS

Engineered as a more comfortable and durable alternative to existing industrial FR fabrics, Tecasafe® Plus provides superior arc flash and flash fire protection. Featuring the enhanced comfort of Coolderm Technology, Tecasafe® Plus offers a proprietary fibre blend to keep you cooler when it's hot and drier when it's cool. With active moisture wicking and excellent breathability, Coolderm Technology keeps the wearer worry-free and very comfortable.

NFPA:2112

PPE

Personal Protective Equipment (PPE) is an important line of defense in arc flash safety. NFPA 70E:2018 standard uses four categories of PPE, with each category including the minimum Arc Rating value for the required PPE.

PPE 1: 4 cal/cm²
PPE 3: 25 cal/cm²

PPE 2: 8 cal/cm²
PPE 4: 40 cal/cm²

Westex

UltraSoft®

WESTEX ULTRASOFT®

UltraSoft® was created with a unique blend of 88% cotton and 12% high-tenacity nylon to provide a soft feel for greater comfort, enhanced wear life and protective performance. UltraSoft® is guaranteed flame resistant for the life of the garment in either high-temperature industrial or home washing procedures. That makes it ideal for enhanced protection from electric arc and flash fire exposures, as well as multipurpose protection from electric arc flash, flash fire, molten ferrous metal and welding exposures.

ATPV RATING

The minimum incident energy (in Calories per cubic centimetre) that protective equipment can be exposed to, to prevent the onset of a second-degree burn.

NFPA 70E:2018

SUSTAINABILITY TARGETS & INITIATIVES

Bisley Workwear has a 5-year Target Plan of sustainable and environmental initiatives that we are working toward. We are implementing sustainable fabrics into our ranges once they are proven to be durable and robust for the Bisley Workwear range.

We are actively working towards recycling used Bisley garments into fabric to be turned into new Bisley Garments.

Modern Slavery Statement and Policy

Bisley Workwear is passionately committed to ensuring that there are no instances of Modern Slavery in our supply chain. We have voluntarily submitted a Modern Slavery statement to the Australian Federal Government

We recognise that as a global apparel company, we are responsible for our supply chain and partners working in an Ethical, Legal and Sustainable way. We have long standing, well established relationships with our supply partners. As a result, we believe that we can work collaboratively with them to ensure that Bisley's values and stipulated standards are not only shared with but also, agreed to by our supply partners.

Partnership with Suppliers – Reporting and Audits

Suppliers must comply with all Anti-Slavery and Modern Slavery Laws and must not engage in any modern slavery practices. All Bisley suppliers are audited for Workplace Conditions Assessment (WCA) annually, which will ensure that there are no forms of slavery, forced labour, or human trafficking, or any forms of human rights abuses at our Supply Partners Facilities.

Bisley Workwear's Modern Slavery Policy must be signed and adhered to by all of our supply partners, in addition to the Supplier Agreement.

Bisley has created a strong set of standards, audit practices and transparent reporting to ensure every Bisley Supplier is fully WCA (Workplace Conditions Assessment) accredited and Compliant. Intertek, the industry leader in Workplace Assessment, inspection and certification, conducts Bisley's Annual WCA audits. Intertek has 130 years of experience in quality, testing, safety, and auditing

Bisley's Ethical Sourcing and Sustainability Team

Bisley Workwear's Environmental and Sustainable policies agreed to by our supply patterners includes a restricted chemical list and mandates safe storage and disposal of dyes

We have appointed an Ethical Sourcing and Sustainability team who meet fortnightly to discuss new initiatives, Non-Government Organisations (NGO) to consider partnering with and any issue or new development pertaining to Ethical sourcing, Modern slavery or sustainability. The team attend seminars, conferences and training sessions regularly to further their knowledge on Ethical Sourcing, Sustainability and Anti-Slavery. The team can be contacted ethicalsourcingsustainability@bisley.com.au.

Equal Opportunity and Diversity

Bisley Workwear greatly values and embraces the diversity of its employees and is committed to creating an inclusive workplace where everyone is treated equally and fairly, where discrimination, harassment and inequity are not tolerated.

While Bisley is committed to fostering diversity at all levels, gender diversity has been and continues to be a priority for the Group.

SUSTAINABILITY TIMELINE

2019

- Ethical Sourcing, Modern Slavery Act and Sustainability
- Ethical Sourcing review of all vendors and entire supply chain
- Engaged Intertek as Ethical Sourcing & Auditing partner
- Engaged in executive level ethical sourcing training
- Confirmed all vendor and business partner audits commenced to be completed by June 2020
- Created an Ethical Sourcing and Sustainability Team with clear responsibilities and measurable deliverables

2020

- July - Dec Social and Environmental Impact
- All Initial Vendor Audits completed
- All Supplier Agreements and Policies signed and agreed to by Supply Partners Jan 2020
- Annual audits for 2020 commenced, as per expiry dates. Annual audits mandatory as per our Supply Agreements - ongoing Intertek
- Any corrective action plans in place with 3, 6, or 9 month completion targets - ongoing Intertek
- Introduce sustainable packaging and recycled fabrications into new ranges
- Submitted our Modern Slavery Statement to the Federal Government
- Partnered with Australasian Circular Textile Agency, with a commitment to commence recycling uniform programs into textiles to be used for Bisley Products - circular textile manufacturing

2021 & Beyond

- Continually review and upgrade our Sustainability goals
- Roll out sustainable/recycled ranges and reduction of packaging
- Build on suite of sustainable fabrics, recycled fibres, develop and enhance sustainable packaging
- Begin working with our sustainable 'end-of-life' uniform recycling solution companies
- Join SAC HIGGS and BLUESIGN supply chain chemical analysis rollout and action plans

PANTS

New **STRETCH** Technology

Bisley Workwear garments are built to endure the toughest conditions you face while working.

All of our designs integrate the most durable fabrics, the latest garment technologies, and reinforced stitching, to ensure Bisley Workwear is the toughest workwear on-site.

Our new stretch technology enables workers to get their job done without their garments restricting them our new stretch technology moves with you.

Bisley Workwear's stretch technology increases the natural movement of the garments without compromising on durability, seam strength, or longevity.

We make them perfect for every job, from the very first wear.

A man is sitting on a sofa, smiling, with his feet up. He is wearing dark blue Bisley socks with yellow accents and the Bisley logo. In the foreground, there is a wooden table with a white bowl of snacks and two glasses. The background is a bright, out-of-focus window with white curtains.

ACCESSORIES

BFS0062

HAND SANITISER

FEATURES

- / Bisley Hand Sanitiser is a safe and effective way to reduce contact based infection.
- / Bisley Hand Sanitiser is alcohol-free and helps keep your skin soft and healthy. It is suitable for use on children, and is ideal to use around food, pets and plants.
- / Unlike traditional alcohol based hand sanitisers that only provide short term protection, our unique quatlock technology creates an invisible microscopic layer of protection on your skin which continually destroys bacteria for up to 24 hours*.

SIZE

500mL

*Product needs to be re-applied after washing hands or if hands become soiled.

ADVANCED 24-HOUR (NON-ALCOHOL) HAND SANITISER

HAND SANITISER COMPARISON

The following is a comparison between conventional alcohol-based hand sanitisers and BISLEY Hand Sanitiser. Both sanitisers kill 99.99% of germs, but that is where any commonality stops.

ALCOHOL BASED HAND SANITISER	BISLEY ADVANCED 24-HOUR (NON-ALCOHOL) HAND SANITISER
<ul style="list-style-type: none"> ✗ Conventional hand sanitisers today contain 65% - 80% alcohol ✗ Ethyl alcohol delivers a flash kill of bacteria on the skin ✗ Ethyl alcohol is both highly flammable, and an intoxicant ✗ Ethyl alcohol has a short life, generally less than a minute ✗ Ethyl alcohol dewater, dehydrates and damages the skin ✗ Ethyl alcohol offers no residual germ protection 	<ul style="list-style-type: none"> ✓ Keeps hands clean, fresh and protected for up to 24 hours (needs to be re-applied after washing hands) ✓ Key active ingredient is sustainably sourced from nature ✓ Forms an invisible layer of microbial protection on skin ✓ One daily application for efficient nonstop germ protection ✓ No flammable alcohols ✓ Skin friendly, non-allergenic, softens and protects the skin ✓ Confident protection from germs all day long

SIZING & HOW TO MEASURE

TRADITIONAL FIT

Workwear garments are traditionally bigger in terms of fit compared to fashion or casualwear. Bisley garments are well known for their generous fit, providing greater comfort and movement when you work.

The ease for Traditional Fit shirts is 23cm.

MODERN FIT

Bisley Modern Fit shirts are half size smaller than the Traditional Fit. Bisley Modern Fit pant is lower waisted and slightly slimmer in the leg.

The ease for Modern Fit shirts is 19cm.

ACTIVE FIT

Bisley Active Fit shirts are one size smaller than the Traditional Fit.

The ease for Active Fit shirts is 15cm.

EASE

Ease is the amount of excess volume in a garment needed for regular body movement. It is the difference between body measurement and garment measurement. Having ease is very important because this added volume allows you to breathe, move your arms forward, bend your elbows, sit, walk, and do all your normal daily activities in comfort and without restriction.

WOMEN'S MEASUREMENTS

- 1 BUST:** Measure around the fullest part of the bust under the arms with your arms at resting position.
- 2 WAIST:** Measure over undergarments at the natural waistline (usually approx. 1cm above the navel).
- 3 LOWER WAIST:** Measure over undergarment approx. 4cm below the natural waistline.
- 4 HIP:** Measure over undergarments at hips (usually the widest part and is approx. 25cm below the waistline).
- 5 IN-LEG:** Measure from crotch to floor, with shoes.

MEN'S MEASUREMENTS

- 1 NECK:** Measure around the neck where the top of the shirt collar would sit.
- 2 CHEST:** Standing naturally, measure around the fullest part of the chest and shoulder, under the arms with your arms at resting position.
- 3 WAIST:** Measure over undergarments at the natural waistline (usually approx. 1cm below the navel).
- 4 IN-LEG:** Measure from crotch to floor, with shoes.

DISTRIBUTOR SUPPORT INFORMATION

QUALITY GUARANTEE

Bisley Workwear garments are sourced, manufactured and tested by independent laboratories, to Australian Standards which ensure consistency of product and workmanship. Each Bisley Workwear garment is labelled with a barcode and identifying order numbers (to meet AS/NZS 4602.1:2011) so we can quickly trace the production processes used to manufacture your product, identify the issue and resolve it immediately.

This exemplary quality control process allows us to replace any garment which does not meet your quality expectations once you return it to us for inspection.

CORPORATE IDENTIFICATION

The Bisley Workwear Product team can help you develop a corporate identity that sets you apart from the rest. We can monogram, embroider, heat transfer or screen print your company logo onto almost any piece of Bisley Workwear clothing. Contact our Customer Service team or your local Sales Representative for further information.

Corporate identification may also entitle you to claim a tax deduction for your business. The Bisley Workwear Product team can provide you with information to ensure tax deductibility on your wardrobe.

BACK ORDERS

Stock service goods will be kept on back order at the customer's request.

MINIMUM ORDERS

All orders above \$150 (ex. GST) will be delivered freight free. All orders below \$150 (ex. GST) will attract a surcharge of \$15.

CUSTOMER SERVICE HOURS

Sydney, Australia (8.15am - 5.00pm),
NZ (8.00am - 4.30pm), WA (8.00am - 4.30pm)

PRIORITY DELIVERY

For urgent deliveries, Bisley Workwear can provide a priority service where freight charges are calculated by Size, weight, destination and speed of service required. Any additional charges are indicated on your order confirmation.

RETURNING PRODUCT

For all distributor initiated returns (where the customer has made an ordering mistake), a claim must be made within seven (7) days from receipt of the goods. An AUD\$20.00 (NZ\$10.00) handling fee will apply. Goods will only be accepted if they are in their original packaging and condition, free of any markings and damage. The customer will be required to pay for the freight back to the Bisley Workwear warehouse from which the goods were dispatched (Sydney/ Perth/ Darwin or Auckland). The original invoice number must be supplied before any claim can be processed.

WE WILL NOT ACCEPT THE RETURN OF GOODS IF

- Goods are damaged in the washing machine or dryer due to care instructions having not been followed correctly
- Goods suffering from normal wear and tear
- Goods that have been shop soiled or have discoloured due to lengthy periods of time in the store
- Goods that are discontinued products
- Goods that have had a customer-approved value-add, including embroidery, printing or custom taping

WE WILL CONSIDER CLAIMS FOR

- Goods damaged or lost in transit
- Goods that are faulty or defective as a result of faulty workmanship or materials

A Returns Authorisation Number (R.A.N.) must be obtained by contacting the Bisley Workwear Customer Service team who will explain the full returns process. Any goods sent without a R.A.N. will be returned to the customer at their cost. Bisley Workwear will accept freight charges on returned goods provided the return has been duly authorised by a company representative and the goods are returned via the carrier nominated by Bisley Workwear.
